Dr. D V Ramamurthy, Principal GIET (A), welcomed all the members for BOS. Prof. K.Valli Madhavi Chairman BOS and HOD (Master of Computer Applications) welcomed all the members to the BOS-MCA Meeting of GIET (A), for Two days i.e on 12th and 13th Feb 2016, at the Board Room, RK Block of GIET Campus, for finalizing 3rd year Syllabus along with other points in the agenda. The agenda points have been apprised to the members by BOS Chairman. During the meeting the following points were discussed and resolved as follows-

73/2/16
(K. Valli Madhavi)
Chairman BOS

1. Course Structure for 1, 2 and 3 years, on perusal, which were already approved by the earlier boards. Suggestions were given while preparing the course structure for the next regulation.

Following are the suggestions;

- a. C Programming can be in 1st Semester and Data Structures can be kept in the 2nd Semester,
- b. Paper titled Digital Logic and Computer Organization can be changed to Computer Organization by placing Digital Logic syllabus as one unit in it.
- c. Discrete Structures can be kept as a single subject without graph theory.
- d. File Structure subject can be removed from the 2nd Semester.
- e. Intellectual Property Rights and Professional Ethics paper can be placed in the 5th Semester as elective.
- f. Computer Graphics can be kept as Elective I and followed by Image Processing paper as Elective II.
- g. Whenever subjects in Electives are designed, continuity in between Elective I and Elective II should be maintained.
- h. Suggested to introduce job oriented subjects, Python, R+, Hadoop.
- i. Compiler Design and Principles of Programming Languages are the subjects suggested for inclusion.

2. Suggestions regarding Syllabus:

- a. In 5th Semester the paper titled Cryptography and Network Security some ammendments are made.
- b. In 5th Semester the elective paper titled Software Design Methodologies some ammendments are made in the 2nd and 3rd Units.
- c. Data Sciences paper should not be kept as a subject, so for next regulation in place of this paper Big Data containing different frameworks of Map Reduce and R Programming can be introduced.

Wah
13/2/16
(P. V. Maheshwari)

3. Suggestions regarding the textbooks and reference books –
 - a. Count should be similar for all the subjects.
 - b. Editions ,publishers,year of publication should be included.
4. In 6th Semester 150 marks were given for the Project Viva Voce instead of grade ,it must be approved by the DAP ,JNTUK ,before the Academic Council Meeting.
5. The Structure and Model of Question papers for MCA (3rd Year) have been approved for further necessary action. BOS recommended the Chairman (BOS-MCA) to finalize the Model Question papers accordingly and are placed at Annexure 5. BOS Members suggested to identify best experts covering all the well noted institutions in JNTUK range as well as other JNTU's and reputed institutions instead of nominating more than one expert from the same institute.
6. List of Experts for paper setting in the Specific Subjects of MCA (3rd year) programme has been approved and addition to the list as per requirements and scrutiny by the BOS Chairman –MCA, who is hereby authorized to do so and the said lists are placed at Annexure 4.
7. List of Examiners for paper Valuation as per Annexure 4 for MCA (3rd year) programme have been approved and modifications if any to the list of members as per requirements is authorized to Chairman BOS-MCA. However BOS Chairman is to see that there will be only one member from one institute.
8. List of Practical Examiners for Labs as per Annexure 4 for MCA (3rd year) programme have been approved and modifications if any to the list of members as per requirements are authorized to Chairman BOS-MCA. However BOS Chairman is to see that there will be only one member from one institute.

Mrs.R.Tamilkodi, Chairman BOS and HOD (Master of Computer Applications) welcomed all the members to the BOS-MCA meeting of GIET (A), on 28th Nov 2020, for finalizing Course Structure of GRCA-20 and syllabus of 1st Year and 2nd Year along with other points in the agenda. The agenda points have been appraised to the members by BOS Chairman.

During the meeting the following points were discussed and resolved as follows-

1. Course Structure and syllabus of GRCA-20 for I and II year was finalized and approved.

Suggestions for the Course Structure

- a. The course name C and Data Structures is modified as Problem solving using C & Data Structures in I semester
- b. Database Management System Theory and Lab to be in I semester
- c. Probability and Statistics course and Python Programming Lab has been introduced in I semester
- d. Inclusion of Object Oriented concept in Software Engineering theory and Software Engineering lab in II Semester
- e. Introduced Data Science course and R Programming Lab in III Semester
- f. Introduced Full stack web development course instead of Web Technologies and Professional Ethics course in III Semester
- g. Elective courses are finalized in which MOOCS course is introduced in IV Semester for the benefit of students who undergo project internship during that Semester
- h. Software Testing and Quality Management, Software Project and Process Management, Cyber security and Forensics are the new courses introduced in elective when compared with previous regulation GR17.
- i. Few text books are added in syllabus along with existing text books for some courses
- j. Model Papers has been finalized for both Mid and End examinations
- k. Paper setters have been from autonomous or from reputed Institutions

The Chairman Board of Studies Master of Computer Applications Department thanked all the BOS Members who spent their valuable time for making the BOS meeting success with their important recommendations. BOS Chairman-MCA also thanked all members for giving helpful suggestions for improvements and benefit of the students in current environment.

Annexure-A

It is resolved to approve the syllabus of common subjects of II Year I-Semester & II Semester of AME & ME as approved by the BOS meeting Mechanical BOS which was held on 02.06.2015.

The common subjects are Metallurgy & Material science, Mechanics of solids, Thermodynamics, Fluid Mechanics & Hydraulic Machinery, Computer Aided Engineering Drawing Practice in the I semester KOM, ~~Automotive~~ Engines, IEM, Manufacturing Processes, Machine Drawing in the II Year II Semester (Production Technology).

The syllabus for Basic Automobile Engineering has been discussed at length & reframed completely.

Automobile Engg Lab-I is introduced in II Year I Sem because of its importance. FM & HM Lab & MOS & Metallurgy

Lab are merged into one Lab and named as MOS & FM Lab.

The syllabus of common subjects like thermodynamics & IEM are slightly different from that of Mechanical. We followed the syllabi given by them. We are not aware that

The course structure for III & IV Year has been discussed. We have slightly changed the syllabi of these two in their BOS meeting. We adopted our syllabus for this regulation.

Annexure - B

It is also resolved to approve the list of paper sellers as finalised in this meeting and authorised chairman, BOS to add some more names, if any.

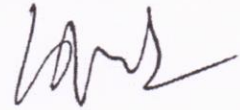

Annexure - C

It is also approved the lists of paper valuers in this meeting and authorised chairman BOS to add some more names.

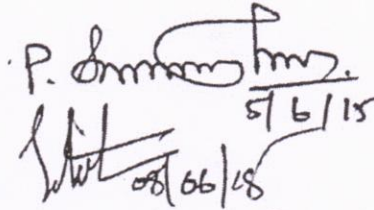

Any other item

It is decided to modify slightly the course structure of II Year. The members thought that the Metallurgy Lab is not important for Automobile. Therefore deleted from the course structure. In its place FM Lab is introduced with MOS Lab as two half Labs. The FM & HM Lab more are 12 experiments. From this four HM experiments are deleted, six out of eight experiments are to be performed and this FM Lab is merged with MOS Lab as half Lab. The Automobile engg Lab, because of number of experiments too large, made into two parts, part I in II-I semester.

Annexure - A.

The second Year course structure and syllabi are reviewed and they were kept as it is. It is decided not to change the curriculum as far as two semesters course structure and syllabi of second year is concerned.

Some common subjects common with mechanical, are to be discussed in BOS meeting of Mechanical, It is decided that the syllabi for some common subjects common with mechanical are to be prepared by BOS mechanical and the same has to be adopted for Automobile Engineering department also.

| The common subject | Year | Semester |
|--------------------------------------|------------|----------|
| 1) Dynamics of Machinery | <u>III</u> | I |
| 2) Heat transfer | <u>III</u> | I |
| 3) Heat transfer Lab | <u>III</u> | I |
| 4) Instrumentation & Control Systems | <u>III</u> | II |
| 5) Computational fluid dynamics | <u>IV</u> | I |
| Departmental Elective-II | <u>IV</u> | I |
| 6) CAD / CAM | <u>IV</u> | I |
| 7) Finite Element Methods | <u>IV</u> | II |
| 8) CAD/CAM Lab | <u>IV</u> | I |

The syllabus for Managerial/Economics & Financial analysis which is a subject in III - II, Management Science & Principles of Entrepreneurship, subjects of and IPR & Patents Departmental elective-IV are to be prepared and

approved in BOS meeting of MBA Department. These syllabi as approved by BOS MBA will be adopted as it is.

The syllabus for Microprocessors & Micro Controllers a subject of Departmental Elective-II in IV-I is to be prepared and approved in BoS meeting of ECE GIET-A.

It is decided to change the titles of the following subjects to make them appropriate with their syllabi. These changes are shown as underneath.

| SNO | Year & Semester | Subject type | Old title | New title |
|-----|-----------------|--------------------|--------------------------------------------|----------------------------------------------------|
| 1 | IV Year I Sem | Dept. Elective -II | * Condition Monitoring of Vehicle Dynamics | * Condition Monitoring of Vehicle Dynamics |
| 2 | IV Year I Sem | Dept. Elective -II | ** Electronic Engine Management System | ** Electronic Engine & Vehicle Management Systems. |

* As the subject content is confined to the monitoring of vehicle dynamics only and not for diagnosis of all the problems, the title is changed to Condition Monitoring of Vehicle dynamics.

** As the subject content is electronic management for both engines and other components of vehicle such as ABS, collision avoidance system, telematics etc., the title is changed to Electronic Engine & Vehicle Management System.

The following changes were made in the following subjects

1 Design of Machine Elements:

Bogie leaf springs, parabolic leaf springs, air springs were added to springs topic.

Types of lubricants & Lubricant properties were added to Bearings topic.

2 Vehicle Performance & Testing

Heat balance sheet, Combustion, Emission and load calculations were added to Vehicle Performance estimation.

2. Gear box testing, rear axle and wheel testing are added to Vehicle performance testing at Laboratories

3 Automotive Electrical & Autoelectronics

The syllabus is not covering electronic part so some topics were clubbed together, such as ignition, starting & charging systems were clubbed together

- Electronic gasoline injection and Diesel injection systems were added in 5th unit

- In the 6th unit Electronic ignition system, ABS, GPS, Electronic fuel injection systems etc. were introduced.

4 Trouble shooting, Servicing & Maintenance of Automobiles (DE-1)

The following topics were added in various units

- Types of maintenance

- 3S, 2S and 1S type of dealerships

- Brake, suspension and tyre maintenance etc.

- wheel alignment, wheel balancing

5 Automotive Pollution and Control

The following topics were added

- SCR (selective catalytic Reduction) CCS (Carbon capture and storage) & Charcoal canister

A text book IC Engines, combustion & Emissions

By B.P. Pundhir (IIT Prof) is added in references

6 Automotive control systems

- SI Engine simulation by Dr. V. Ganeshan book is added in reference

7 Automotive Pollution & Control

1st and 2nd units interchanged since the introduction of 1st unit to 2nd unit

BSI, BSII, BSIII, BSIV, BSV & BSVI were added.

8 Automotive chassis & Suspension

- Various types of frames such as ladder, structure, monocoque, sliced, Joggled etc are added in 1st unit
- Brake linings, leaf springs were added in Brakes topic
- Types of tyres, wheels were added in 5th unit

9 Automobile Engineering Lab-II

- Fuel injection pump testing &
- Overhauling of Air brake system were included.

10 Mini Project. - Decision Pending regarding what are the various projects to be content in the Project.

It is decided to include one more subjects in the next regulation, probably R-17 regulation, in which automobile transmission system and chassis system were included (clutch, gear box, propeller shaft, rear axle, front axle, suspension, frame, electricals, brake etc are included).

In order to balance the management subjects in odd semester (in college), the two subjects are swapped in III-I & III-II by changing the course structure. They are as follows

| subject | Existing semester | changed semester |
|---------------------------------------------|-------------------|------------------|
| 1 Managerial Economics & Financial analysis | III - I | III - II |
| 2 Automotive Electrical & Auto-electronics | III - II | III - I |

Annexure-B

The syllabi and course structure for 3rd & 4th year ARIE for both the ~~sy~~ semesters are prepared and discussed at length and get them prepared for the approval of the same in the Academic council meeting to be held subsequently.

Annexure-C

It is also resolved to approve the list of paper setters as finalised in this meeting and authorized chairman BOS to add some more names if required within a month

Annexure-D

It is also resolved to approve the list of paper valuers in this meeting as finalized in this meeting and authorized chairman BOS to add some more names if required within a month

Any other Item

It is also resolved to approve the model question paper & to authorize the local members in BOS to prepare the model question paper as per the common structure adopted and submitted to the chairman, Academic council within two weeks

Structure - 3 hours Maximum Marks - 70

It contains two parts A and B

Part A is compulsory and carries 14 marks having 5 or 6 short answer questions from six units $1 \times 14 = 14$ Marks

Part B carries 6 questions one from each unit and the student has to answer any four $2 \times 11 = 22$ Marks

Annexure - B
For the subject Basic Electrical & Electronics Engineering and for the Lab of Basic Electrical & Electronics Engineering the syllabi will be discussed in BOS meeting of EEE Dept and the same syllabus will be adopted as it is.

For the theory and Lab of Soft Skills - I, the syllabi will be discussed in BOS meeting of HBS Dept and the same will be adopted as it is.

There is a change in the structure of the four years. The subjects Industrial Engineering & Management has been changed from II-II Semester to II-I semester and the subject Fluid Mechanics & Hydraulic Machinery has been shifted from II-I Semester to II-II Semester.

The name of the Lab, Automobile Engineering Lab-I has been in II Year-I Sem, has been changed to Automobile chassis Components Lab.

The name of the Lab, Automobile Engineering Lab-II in II Year-II Sem has been changed to Engine components & Testing Lab. The syllabi for the above two labs have been reorganized.

The CAD/CAM Lab in IV-I Semester has been shifted to III-II semester with the same syllabus.

The name of the Autoscaning & Vehicle testing Lab has been changed to Tuning of Automobiles through Real time workshop interaction Lab and has been shifted from III-II Semester to IV-I semesters.

For the open electives, which is a subject in the IV-I Semester the subjects from different departments are chosen and so the present subjects in this category are replaced from 1 Automotive Pollution & Control 2 Advanced materials 3 Industrial Hydraulics and Pneumatics (Present list) has been changed to

- 1 Atmospheric Pollution and control
 - 2 Electronic Instrumentation
 - 3 Data Base Management Systems
 - 4 Computer graphics
 - 5 Green Engineering Systems
 - 6 Automotive Pollution and
- to be chosen by AME students

The syllabi of the subjects, Basic Automobile Engineering and Automotive engines have been reorganised and framed

The syllabi of the laboratories Automobile Chassis Components Lab, Engine Components & testing Lab have been reorganised

BOS MEETING HELD ON 11/03/2019

AGENDA:

1. Rearranging the subjects, mainly electives as per AICTE model curriculum
2. Fixing of 3rd year and 4th year syllabi of GR 17
3. Planning for next regulations
4. Evaluation procedure for mini-project
5. Any other to improve the skill of the student

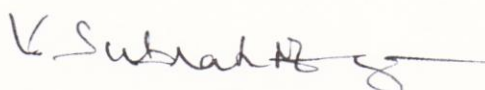

RESOLUTIONS:

1. Instrumentation and control systems in 3-2 and CAD/CAM in 4-1 were interchanged to match with the laboratories in the same academic year
2. Automotive pollution and control is incorporated in 4-1 as regular subject and European emission standards were added
3. Automotive Chassis and Suspension in 4-1 is made as Elective-3
4. In first unit of Vehicle performance and Testing included introduction to public transport and coordinated transport system
5. In Vehicle performance and Testing 1st Unit is divided into two units by removing 4th Unit and in 2nd Unit noise vibration and vehicle testing in chassis dynamics was included.
6. In Engine Components Manufacturing lab, components manufactured in this lab were included

Head of the Dept.
Automobile Engineering

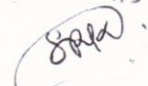

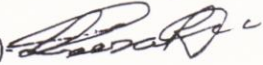

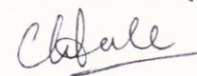

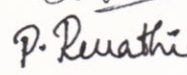

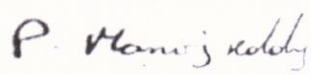

7. In course structure miniproject guidelines were moved to 2nd Year 2nd Semester from 3rd Year 1st Sem
8. In miniproject evaluation method committee has to be constituted from HOD, a senior from the same department and a senior from other department.
9. In Disaster management, 3rd Unit climate change adoption and in 1st Unit tornado, tsunami, hurricane, power grid failure and in 4th Unit responsibilities as an individual or citizen as a rescue team were included
10. In 3-2 title of the subject Automotive Manufacturing is changed to Automation in Automotive Manufacturing
11. In Troubleshooting, servicing & maintenance of automobiles, introduction to OBD is added in Unit-3
12. In course structure miniproject guidelines are moved on to 3-2 course structure from 4-1 and In miniproject evaluation method and details of committee members are included
13. In syllabus of Vehicle Body Engineering hatchback topic is added in car body
14. In Vehicle Dynamics semi active and active suspension were included in 1st Unit
15. In 4-1 Hybrid, Electric and Fuel cell vehicles made as regular subject and vehicle maintenance as elective.
16. In Hybrid, Electric and Fuel cell vehicles, plug in hybrid vehicles were added in 5th Unit
17. In Modern Vehicle Technology, SCR, DPF, DOC were added in Unit-3

Major changes made in the curriculum GRBT19

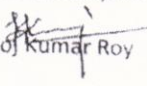

- The total credits are decreased to 160
- In the new curriculum 5 Professional Elective Courses are introduced in 5 streams, so that the student can choose his interesting area from 3rd year 1st Semester onwards
- Also 5 Open Elective Courses are introduced
- Two Professional course laboratories are merged namely Automobile Servicing & Maintenance Laboratory and Automobile Scanning & Vehicle Testing Laboratory. The new course name is Servicing, Maintenance and Scanning of Automobiles
- In order to increase the hands on experience Summer Internship is introduced as Project course. The student has to do this course in the summer after 2nd year and it will be evaluated in 3rd Year 1st Sem
- Accident analysis is a single credit project course is introduced in the 3rd year 2nd sem. The student has to visit accident area or accident zones or even collect accident information from news media and to analyse it and have to give recommendations to avoid such accidents
- Instrumentation and control system subject is removed, because the similar syllabus has to go through Automobile Electrical & Autotronics subject

GRBT19

The following resolutions were made in the BOS meeting

1. The mandatory subjects namely

- a) Professional Ethics & Human Values (I-1),
- b) Environmental Studies (I-2)
- c) Design thinking & Product Innovation (II-1),
- d) Constitution of India (III-2),
- e) Intellectual Property Rights and Patents (IV-1)

are non-credit courses and their internal evaluation, only for 30 marks.

2. The subject name IPR & Patents is changed to Intellectual Property Rights and Patents to have uniformity throughout all branches in the college.

3. The syllabus of all the courses (mainly Automotive Chassis and Suspension, Vehicle Dynamics, Hybrid Electrical & Fuel Cell Vehicles) were refined.

4. The syllabus of the courses

- Industrial Engineering and Management (IEM),
- Dynamics of Machinery (DOM),
- Heat Transfer (HT),
- Heat Transfer lab,
- Operations Research (OR),
- Finite Element Methods (FEM),
- CAD/CAM,
- CAD/CAM lab,
- Computational Fluid Dynamics (CFD)

were adopted from Mechanical Engineering branch as they are common to both AME and Mechanical Engineering.

5. Intellectual Property Rights and Patents syllabus was prepared by HBS department, common for all branches in the college.

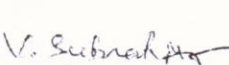

6. The course 'Design of Automobile Components' title was changed to 'Design of Automotive Elements' and the syllabus is refined.

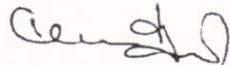

7. The course Professional Elective-III 'Automotive manufacturing' title was changed to 'Automation in Automotive manufacturing'.

8. The course structure is prepared as per the guidelines of APSCHE and JNTUKakinada.
9. The course structure proposed for the 1st year of non-circuit branches by the department of Humanities & Bachelor of Sciences of GIET(A) is common to AME and Mechanical Engineering, except in the 2nd semester instead of Metallurgy and Material Science the AME students need to study 'Fundamentals of Automobile Engineering'.
10. Introduced 'Basics of Electric Vehicles' chapter in the 'Fundamentals of Automobile Engineering' course.
11. Honourable BOS members advised the following points keep in view while preparing rest of the course structure
 - a. Implementing Automobile simulation software such as Simulink, AVL boost, AVL fire etc.
 - b. Making MOUs with local major workshops such as APSRTC Rajahmundry, Railway car shed Rajahmundry and other workshops to do internship by the students from 3rd year onwards to improve their skills and employability.

Dr. D V Ramamurthy, Principal GIET (A), welcomed all the members for BOS. Dr. B. Sujatha, Chairman BOS and HOD (Computer Science & Engineering) welcomed all the members to the BOS-CSE Meeting of GIET(A), for Two days i.e on 12th and 13th Feb 2016, at the RK Block-Board Room of GIET Campus, for finalizing 3rd and 4th year Syllabus along with other points in the agenda. The agenda points have been apprised to the members by Dean-Academics GIET(A), Dr. M Varaprasada Rao. During the meeting the following points were discussed and resolved as follows-

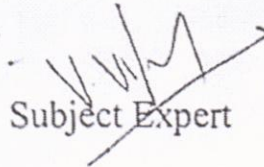

1. Course Structure for 1, 2,3 and 4th years, on perusal, which were already approved by the earlier boards, following small changes have been suggested for future- The Subject of '**Computer Programming-1**' may be read as " Fundamentals of Computer Programming" and the syllabus may be looked into by the Computer Science Department, while holding the BOS, for the computer Science Department, while finalising the same for all departments which are having the subject as common course.

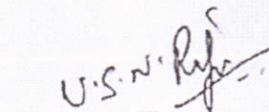

Similarly the Subject '**Computer Programming Lab-1**' may be modified to 'Computer Programming Fundamentals - Lab'. This is the suggestion to remove ambiguity in the structure. Accordingly the finalized Structure is placed at Annexure 1 for all the Four Years (1st Year, 2nd Year, 3rd Year and 4th Year) and is recommended the same for approval of College Academic Council. The said modified course structure of 1st year is enclosed at Annexure 1a.

2. The detailed syllabi for 3rd and 4th years have been reviewed with good inputs from all the External BOS Members. The suggestions have been incorporated and the syllabus has been finalized. These were enclosed at Annexure 3.
3. Syllabi for other departments in the following subjects have been finalized.
 1. OOPs through Java for ECE, EEE
 2. Computer Networks for ECE
 3. Network Security & Cryptography for ECE
 4. Artificial Neural Network & Fuzzy Logic for ECE
 5. Data base Management Systems for EEE
 6. Unix & Shell programming for EEE
 7. Artificial Intelligence Techniques for EEE
 8. Interactive Computer Graphics for Mechanical Engg.
4. The following inter disciplinary subject syllabi will be prepared by the respective departments, which are either in Departmental Electives or in Compulsory subject's categories.
 - a. Data Communications by ECE

Dr. D V Ramamurthy, Principal, GIET (A) and Chairman of the BOS, Sri S.K.Patra welcomed all the BOS members on their arrival to take part in the BOS meeting and deliberate on the points of agenda and other relevant issues to resolve suitably to arrive at conclusions with a view to finalise the syllabi and also make suggestions for any alterations /modifications in the course structure & syllabus of 3rd year and 4th year of B.Tech (Mining Engineering). During the meeting, the following points are discussed and resolved as follows:

1. The detailed syllabi for 3rd and 4th year have been reviewed. Several valuable suggestions are made by the External BOS Members. The suggestions have been incorporated and the syllabus has been finalized, which has been given in Annexure -I.

2. List of Experts for paper setting for the Specific Subjects of UG (3rd and 4th year) programmes has been approved and for addition/alteration to the list as per requirements and scrutiny by the BOS Chairman, who is hereby authorized to do so. The said lists are placed at Annexure –II.

3. The Structure and Model Question papers for UG (3rd and 4th year) have been approved for further necessary action. BOS members authorised the Chairman (BOS-Mining) to finalize the Model Question papers accordingly and are given in Annexure-III. BOS Members suggested to identify best experts covering all the well noted institutions in JNTUK range as well as other JNTU's, NIT's, IIT's and other reputed institutions in the country in Mining Engineering.

4. The syllabus of following subjects is required to be prepared by the respective departments as mentioned below:

- a. EIA (Environmental Impact Assessment) by HBS Department.
- b. Mine Systems Engineering-by Mechanical Engineering Department.
- c. Industrial Engineering and Management by Mechanical Engineering Department
- d. IPR and Patents by Mechanical Engineering Department.
- e. MEFA (Managerial Economics And Financial Analysis) by Mechanical Engineering Department/HBS Department.
- f. Soft Skills – II by HBS department
- g. PPC (Production Planning and Control) by Mechanical Engineering Department.

5. The following open elective subjects are suggested to add in the existing list:

- a. Remote sensing and GIS (Geographical Information System)
- b. Deep Sea Mining

6. List of Examiners for paper Valuation as per Annexure-IV for UG (3rd and 4th year) programmes have been approved and modifications if any to the list of members as per requirements is authorized to Chairman BOS-Mining. However BOS Chairman is to see that there will be only one member from one institute.

7. List of Practical Examiners for Labs as per Annexure-V for UG (3rd and 4th year) programmes have been approved and modifications if any to the list of

members as per requirements are authorized to Chairman BOS-Mining. However BOS Chairman is to see that there will be only one member from one institute.

8. Based on suggestion by the subject experts to reorganize the existing Course structure, a few subjects are proponed and postponed, without altering the course structure and credits.

9.The committee also suggested to include a few more courses which are relevant, replacing subjects which are not relevant in the present course structure from 2nd year 1st semester onwards . The suggestions will be incorporated later

10.For a few subjects, experts suggested corrections and incorporated in the draft prepared by the Department of the Mining Engineering ,GIET(A).

11. The course structure with credits for III-I, III-II, IV-I & IV-II is approved by all the members of BOS.

12. The committee is of the opinion that the credit points should be increased from 3 to 4 in case of the core mining subjects.

13. It is explained to the subject experts that the suggestion is well appreciated. However, suggestions need approval from academic council. So, suggestions given by experts can be incorporated later.

The BOS committee, however,has opined and concluded that the decision taken by the Chairman of the BOS will be final and also authorised the BOS Chairman to suitably modify and or make suitable changes in the syllabus etc. if

felt necessary. The chairman will keep other members of BOS informed as and when such changes or modifications will be done.

The Members discussed the points in the agenda one by one and resolved the following.

1. The course structure and syllabus of III and IV year of GRBT-19 was discussed thoroughly. The prerequisites for different subjects were verified and discussed.
 - i. Four Open Electives offered from various departments in IV, V, VI and VII semesters have been received from respective departments, reviewed and discussed.
 - ii. The five Professional Departmental Electives in V to VIII semesters, syllabuses have been verified thoroughly and modified with minor changes and accepted.
 - iii. The syllabus of three Open Electives Introductory Mining, Disaster Management in Mining, and Remote Sensing & GIS in Mining, offered by the department to other departments have been verified thoroughly and are approved.
 - iv. Expert members suggested that the Risk management topic should be incorporated in Mine Safety Management, so suggestions were incorporated, reviewed and accepted.
 - v. Expert members suggested that the Underground Metal Mining, Mine Management, Mine Safety and Mine Legislation should be there in professional core courses, so suggestions were incorporated, reviewed and accepted.

- vi. Expert members suggested that the Advance Mine Surveying /Mine Machinery/Mine Transportation can be kept as professional elective courses, so suggestions were incorporated, reviewed and accepted.
- vii. Expert members suggested that the Mine Legislation subject can be renamed as Mine Legislation & General Safety by incorporating some safety aspects in one of the units, so suggestions were incorporated, reviewed and accepted.
- viii. Expert members suggested that the Restructure planning can be included in Mine Planning and Designing subject, so suggestions were incorporated, reviewed and accepted.
- ix. Expert members suggested that the Mining Transportation and Mining Machinery subject can be merged to a single subject so after thorough discussions it was finalized that Mine transportation will be kept in professional elective courses and Mine Machinery will be kept as a professional core course, so suggestions were incorporated, reviewed and accepted.
- x. Expert members suggested that NDRF and other related organizations and some recent disasters should be introduced into Disaster Management in Mining subject, so suggestions were incorporated, reviewed and accepted.
- xi. Expert members suggested that Underground dust (generation, control, diseases, standards, instruments) topic can be introduced in Mine Ventilation subject, so suggestions were incorporated, reviewed and accepted.
- xii. Expert members suggested that any duplicacy in syllabus must be looked into and to be removed.
- xiii. The Subject Environmental Pollution and Control in open electives was written incorrectly in the course structure and was corrected to Environmental Pollution and Control in Mines.

2. The course structure of I year GRBT-20, B. Tech. program was discussed thoroughly.

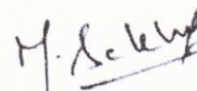

3. Minimum of two text books and two reference books were given with title, author and publisher for each subject in the syllabus copy. The expert members verified the above and found suitable for the concerned courses.

1. Course Structure for 1, 2, 3 and 4th years, on perusal, which were already approved by the earlier boards, following small changes have been suggested for future- The Subject of '**Computer Programming-1**' may be read as "Fundamentals of Computer Programming" and the syllabus may be looked into by the Computer Science Department, while holding the BOS, for the computer Science Department, while finalising the same for all departments which are having the subject as common course.

Similarly the Subject '**Computer Programming Lab-1**' may be modified to '**Computer Programming Fundamentals - Lab**'. This is the suggestion to remove ambiguity in the structure. Accordingly the finalized Structure is placed at Annexure 1 for all the Four Years (1st Year, 2nd Year, 3rd Year and 4th Year) and is recommended the same for approval of College Academic Council. The said modified course structure of 1st year is enclosed at Annexure 1a.

2. The BOS members suggested looking into the marks given for Mini Project and the credits as the marks given are 100 and the credits are only two. Being the work involved the marks are kept as 100 but the credits a candidate will be getting is only 2 and is justified. However the same may also be discussed in Academic Council meeting as suggested by BOS Members.
3. The Detailed Syllabus for the 2nd Year 1st and 2nd Semesters has been already finalized in earlier BOS Meeting and is perused for overall understanding. The same is accepted to be as is except the following few small typographical/cosmetic changes for clarity. The same may please be put-up to Academic Council for approval. The said course structure is enclosed at Annexure 2.

6. The following subjects syllabus will be prepared by the other departments in the place of open electives-
- a. Micro Electro Mechanical Systems (MEMS) by Mech Engg
 - b. OOPS through JAVA by CSE Department.
 - c. Mechatronics by Mechanical Engineering Dept.
 - d. Power Electronics by Electrical Engg Dept.

The following inter disciplinary subject syllabi will be prepared by the respective departments, which are either in Departmental Electives or in Compulsory subjects categories.

- a. Computer Networks by CSE
- b. Management Science by DMS Dept. (MBA)
- c. Soft Skills by HBS Dept.
- d. Network Security & Cryptography – CSE
- e. Artificial Neural Network & Fuzzy Logic by CSE

7. Elective III, Subject Title Embedded Systems & Real Time Operating Systems has been changed to 'Embedded Systems' and is common to EEE in the place of Elective 'Real Time Embedded Systems'.
8. The Structure and Model of Question papers for UG (3rd and 4th year) have been approved for further necessary action. BOS recommended the Chairman (BOS-ECE) to finalize the Model Question papers accordingly and are placed at Annexure 4. BOS Members suggested to identify best experts covering all the well noted institutions in JNTUK range as well as others JNTU's and reputed institutions instead of nominating more than one expert from the same institute.

Dr. D V Ramamurthy, Principal GIET (A), welcomed all the members for BOS. Prof. Dr D.Ravi kishore Chairman BOS and HOD (Electrical and Electronics Engineering) welcomed all the members to the BOS-EEE Meeting of GIET (A), for Two days i.e on 12th and 13th Feb 2016, at the HOD's chamber of GIET Campus, for finalizing 3rd and 4th year Syllabus along with other points in the agenda.

1. Course Structure for 1, 2,3 and 4th years, on perusal, which were already approved by the earlier boards, following small changes have been suggested :- The Subject of '**Computer Programming-1**' may be read as " Fundamentals of Computer Programming" and the syllabus may be looked into by the Computer Science Department, while holding the BOS, for the computer Science Department, while finalising the same for all departments which are having the subject as common course.

Similarly the Subject '**Computer Programming Lab-1**' may be modified to 'Computer Programming Fundamentals - Lab'. This is the suggestion to remove ambiguity in the structure. Accordingly the finalized Structure is placed at Annexure 1 for all the Four Years (1st Year, 2nd Year,3rd Year and 4th Year) and is recommended the same for approval of College Academic Council. The said modified course structure of 1st year is enclosed at Annexure 1a.

2. The BOS members suggested looking into the marks given for Mini Project and the credits as the marks given are 100 and the credits are only two. Being the work involved the marks are kept as 100 but the credits a candidate will be getting is only 2 and is justified. However the same may also be discussed in Academic Council meeting as suggested by BOS Members.
3. The Detailed Syllabus for the 2nd Year 1st and 2nd Semesters has been already finalized in earlier BOS Meeting and is perused for overall understanding. The same is accepted to be as is except the following few small typographical/cosmetic changes for clarity. The same may please be put-up to Academic Council for approval. The said course structure is enclosed at Annexure 2.

The Subject Title for MEFA need to be common with all departments and should be Managerial Economics and Financial Analysis in line with JNTUK Subject Titles. Since the subject and Syllabus is common the same name /title may be put for this subject as '**Managerial Economics and Financial Analysis**'

4. The detailed syllabi for 3rd and 4th years have been reviewed with good inputs from all the External BOS Members. The suggestions have been incorporated and the syllabus has been finalized. These were enclosed at Annexure 3.
5. The course structure of 3rd & 4th year is already approved in previous BOS Meeting .But some of the subject titles has been suggested to change is as
 1. Micro Processors and Micro Controllers for EEE 3rd B.Tech 2nd semester changes the subject title as "Microprocessors and Micro Controllers and its applications"
 2. Micro Processors and Micro Controllers Lab for EEE 4th B.Tech 1st semester, changes the subject title as "Microprocessors and Micro Controllers and its applications Lab"
 3. Digital Signal Processing for EEE 4th B.Tech 1st semester, with the change in the subject title as 'Principles of Signal Processing'.
 4. Instrumentation for EEE 4th B.Tech 1st semester as Elective-I with the change in the subject title as 'Electronic Instrumentation and Automation System'.
6. The following subjects syllabus will be prepared by EEE department for other departments as **open electives**-
 - a. Power Electronics by Electrical Engg Dept.

The following inter disciplinary subject syllabi will be prepared by the respective departments, which are either in Electives or in Compulsory subjects categories.

- a. Linear & Digital IC applications.(ECE)
- b. Management Science by DMS Dept. (MBA)
- c. Soft Skills II by HBS Dept.
- d. Microprocessors & Microcontrollers and its applications(ECE)

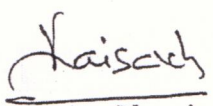

- e. Principles of signal processing(ECE)
- f. Electronic Instrumentation & Automation System(ECE)
- g. VLSI Design(ECE)
- h. Optimization Techniques(MECH)
- i. Embedded Systems(ECE)
- j. OOPS Through JAVA (CSE)
- k. DBMS(CSE)
- l. UNIX & Shell Programming(CSE)
- m. Artificial Intelligence Techniques(CSE)

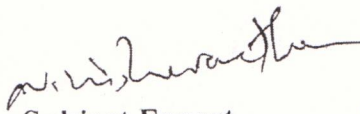

7. Elective II, Subject Title Real Time & Embedded Systems has been changed to '**Embedded Systems**' and is common to EEE&ECE in the place of Elective "Real Time Embedded Systems".
8. The Structure and Model of Question papers for UG (3rd and 4th year) have been approved for further necessary action. BOS recommended the Chairman (BOS-EEE) to finalize the Model Question papers accordingly and are placed at Annexure 4. BOS Members suggested to identify best experts covering all the well noted institutions in JNTUK range as well as other JNTU's and reputed institutions instead of nominating more than one expert from the same institute.
9. List of Experts for paper setting in the Specific Subjects of UG (3rd and 4th year) programmes has been approved and addition to the list as per requirements and scrutiny by the BOS Chairman –EEE, who is hereby authorized to do so and the said lists are placed at Annexure 5.
10. List of Examiners for paper Valuation as per Annexure 6 for UG (3rd and 4th year) programmes have been approved and modifications if any to the list of members as per requirements is authorized to Chairman BOS-EEE. However BOS Chairman is to see that there will be only one member from one institute.
11. List of Practical Examiners for Labs as per Annexure 7 for UG (3rd and 4th year) programmes have been approved and modifications if any to the list of members as per requirements are authorized to Chairman BOS-

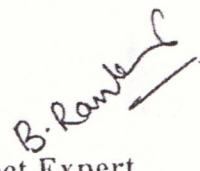

EEE. However BOS Chairman is to see that there will be only one member from one institute.

12. Corrections to the Structure and Syllabus if any, as per University or Governments requirements, if any, can be done sparingly as per requirements, and BOS Chairman is authorized to make such changes. The BOS Chairman need to communicate such changes to all the BOS Members from time to time.

The chairman –Board of Studies Electrical& Electronics Engineering Department thanked all the BOS members, especially the members came from long distances by using various modes of transport and helped in making the 'BOS Meeting' success with their valuable recommendations. BOS Chairman-EEE also thanked all members for giving valuable suggestions for bringing more improvements for the benefit of the students in concurrent environment.

PART - I

Dr P R K RAJU, Director has welcomed the guests from JNTUK and also Adani Group of Industries, Kakinada. He also extended welcome to Principal, Vice Principal (Academics), GIET (A).

Dr M V Subba Rao, has appraised the members of BOS about various subjects of Management Studies in UG B.Tech Programme.

He has informed members that GIET(A) has been following GR17 which is valid for three years and hence the same regulations are followed for the academic year 2019 also. He has proposed course structure, name of subjects and syllabus PG courses for GR20. It is suggested that

- (i) The chapter "Capital Budgeting Techniques" should be added in III unit of MEFA.
- (ii) The chapter regarding e commerce should be added as "Introduction to e commerce" in IV unit of MEFA.
- (iii) The word "subsidiary books" should also be added after Journal in unit V. it should also be added Introduction to Computerised Accounting in the same Unit.
- (iv) E Commerce should be deleted from the syllabus of IPR & P as the this chapter is already included in MEFA.
- (v) Introduction to PPC should be written as Principles and Practice Management oin IV unit of Management Science (MS).
- (vi) Introduction to Project Management – Different techniques PERT & CPM, difference between PERT and CPM. Identification of Critical path method should be deleted. Simple problems should also be included in syllabus.

PART - II

- (i) It is suggested that the title should be "Rural Development" instead of rural Innovation Projects as an elective subject in the I semester of MBA Programme.
- (ii) In GR 20, the division of marks between External examination and Internal Evaluation shall be 70 marks and 30 marks respectively instead of 60 and 40 marks hitherto. The semester examination for each subject shall have eight question out of which the student shall have to attempt any five questions which carries 12 marks each and case study shall carry 10 marks. In the Internal Evaluation out of 30 marks, 20 marks shall be for descriptive examination, 5 marks for report writing and 5 marks for presentation in each subject. There

The Detailed Syllabus for the PG GR-17 has been already finalized in the earlier BOS Meeting and is perused for overall understanding. The same is accepted to be as it is.

The Detailed Syllabus for GR19 syllabus for PG program (Thermal & AD/CAM) is put for preliminary discussion and suggestions were taken for incorporating before next BOS meeting.

The inter disciplinary subject syllabi will be prepared by the respective departments, which are either in Open Electives or basic engineering science courses.

The Structure and **Model of Question papers** for GR-17 UG (All 4years) have been put for discussion. BOS recommended the Chairman (BOS-ME) to finalize the Model Question papers accordingly and are placed at **Annexure 2**. BOS Members suggested to identify best experts covering all the well noted institutions in JNTUK range as well as others JNTU's and reputed institutions instead of nominating more than one expert from the same institute.

List of **Experts for paper setting** in the Specific Subjects of GR-19 UG (All 4 years) programmes has been approved and addition to the list as per requirements and scrutiny by the BOS Chairman –ME, who is hereby authorized to do so and the said lists are placed at **Annexure 3**.

List of **Examiners for paper Valuation** as per **Annexure 4** for GR-19 UG (All 4 years) programmes have been approved and modifications if any to the list of members as per requirements is authorized to Chairman BOS-ME. However, BOS Chairman is to see that there will not be more members from same institute.

List of **Practical Examiners** for Labs as per **Annexure 5** for GR-19 UG (All 4 years) programmes have been approved and modifications if any to the list of members as per requirements are authorized to Chairman BOS-

..7..

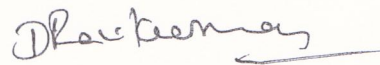

The chairman –Board of Studies, Mechanical Engineering, thanked all the members, especially the members came from long distances by using various modes of transport and helped in making the ‘BOS Meeting’ success with their valuable recommendations. BOS Chairman - ME also thanked all members for giving valuable suggestions for bringing more improvements for the benefit of the students in concurrent environment.

MINUTES OF BOARD OF STUDIES MEETING

The departmental Board of Studies meeting was held on **01/11/2019** and **02/11/2019** in the **Seminar hall, VB Block** at GIET(A) with HOD as the chair.

Agenda

- Discussion and Ratification of GR-19 Course Structure for B. Tech Program
- Discussion on proposed GR-19 syllabus for I and II Year B. Tech courses and ratification of the same
- Ratification of the Proposed model papers for internal and external examinations of both theory and laboratory courses
- Finalization of Text books and Reference books
- Finalization of Examiners list from reputed organizations
- Any other item

Dr. M.Sreenivasa Rao, Chairman BOS and HOD welcomed and introduced all the members of meeting for their gracious presence in the meeting towards improvement of course structure and syllabus

The Members discussed the points in the agenda one by one and resolved the following:

1. The course structure for four year B.Tech programme was discussed thoroughly. The prerequisites for different subjects were verified and discussed.
 - i) Four open electives offered from various departments in IV, V, VI and VII semesters and five professional departmental electives in V to VIII semesters, are introduced in the structure. Elective subjects list was verified by expert members and accepted for inclusion in course structure.
 - ii) The three open electives offered by the department (Robotics, MEMS and Nano Technology) are now included in the list of Department Electives for Mechanical Engineering students

The Annexure I is enclosed for modified course structure

2. Syllabus for 1st and 2nd years has been reviewed and a good number of inputs were given by external BoS members.
 - i) Introduction about AUTOCAD is included in Engineering Graphics subject. The same has been accepted and finalised.
 - ii) Design thinking and innovation was added in III Semester as per the AICTE guide lines. The syllabus was reviewed by experts and finalised.

- iii) Introduced community service oriented project in IV semester as a credit course with 0.5 credits. The members accepted to keep the course in the structure.
- vi) The expert members suggested that advanced topics may be included in the 3rd and 4th year courses.

3. The structure and model of question papers for external and internal evaluation has been reviewed and approved as per given below.

- i) For theory courses: 30 marks for continuous internal evaluation and 70 marks for end semester examination.
- ii) For laboratory courses: 50 marks for continuous internal evaluation and 50 marks end semester examination.
- iii) For Engineering drawing 30 marks for continuous internal evaluation and 70 marks for end semester examination.
- iv) For main project, 80 marks for continuous internal evaluation and 120 marks for end semester examination.

The annexure II is enclosed for model papers.

4. The list of subjects experts from various reputed institutions for paper setting and list of examiners for paper evaluation has been verified and approved. However BOS authorised the Chairman to change above mentioned list if necessary.

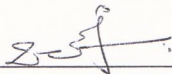

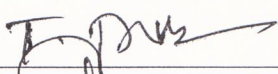

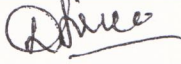

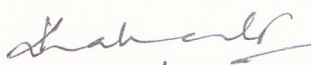

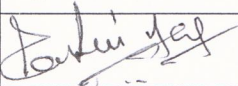

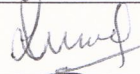

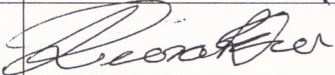

5. Two text books and minimum two reference books were given with title, author and publishers for each subject in the syllabus copy. The expert members verified the above and found suitable for the concerned courses.

6. Computer Aided Machine Drawing was kept as a theory in the course structure. The expert of the BOS suggested to change the course to 1-0-3 with 2.5 Credits as practical course with 50 Marks internal and 50 Marks external. The same was approved by BOS.

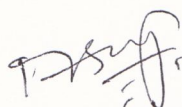

7. Regulation GR-17 ratified earlier for M.Tech programmes will continue for the academic year 2019-20 also. The same was approved by the BOS

The Chairman – BOS mechanical engineering thanked all members especially members came from long distances by using various modes of transport and helped in making BOS meeting success with their valuable recommendations. The chairman also thanked all members for giving valuable suggestions to bring more improvements for the benefit of the students in concurrent environment.
